

# THE EVENING BULLETIN

TUESDAY, OCTOBER 27, 1885.

ASSISTANT SECRETARY OF THE TREASURY  
Cook has resigned at the request of Secretary Manning.

W. H. LEXOW MAXWELL, the alleged  
murderer of Arthur Powell, at St. Louis,  
has been identified as Hugh M. Brooks.

The total registration in New York  
city from the preceding term to the  
1885, against \$5,901 in 1884, and \$2,000 in 1885.

Unofficial footings of returns from Ohio's  
election place Forsaker's plurality at 18,  
153, Leonard (Prohibitionists) received  
altogether 28,064 votes.

Three Italians who figured in the  
trunk murder proceeding at Chicago, and  
long ago, have been sentenced to hang  
on the 14th of November.

This city council of Covington has  
granted the Kentucky Central the right of  
way from the present terminus to the  
Ohio River. The road is seeking an  
outlet to the Grand Central Depot at Cin-  
cinnati.

This cattle men of this State are not  
the only ones who are troubled with pneu-  
monia. The discovery was made last  
week that the disease had made its  
appearance near New York, and one  
milk dealer had sixty-five of his afflicted  
cattle killed by orders.

There are at present 395,000 short tons  
of wheat available for export to Europe  
in California. Altogether that State has  
on hand 705,000 short tons of this article.  
Of this amount 200,000 tons are required  
for consumption and seed, and 70,000  
for export to China and Central America.

PHIBERT CLEVELAND is not at all dis-  
turbed over the Republican success in  
Ohio, if brother-in-law Bacon has been  
correctly reported. He didn't expect  
Hoadly to be elected for the reason that  
Ohio is a Republican State. The result  
will not induce him to change his pre-  
scent policy of dealing out the offices to  
longing Democrats.

This news from the campaign in Vir-  
ginia is encouraging to the Democrats, if  
it is true. It is claimed at Richmond that  
the colored voters are deserting Mahone  
and Wise and throwing their influence  
to the other side. It is said to be a vol-  
untary movement on the part of the ne-  
groes, but it is not possible to predict the  
extent of the movement.

Fears are entertained at Toledo Ohio,  
and Detroit, Michigan, that the small-pox  
ravages at Montreal will be repeated in  
those cities at an early day. Physicians  
think that the strictest quarantine will  
not keep out the disease, so intimate are  
the business relations of the three towns.  
At the first named places, however, vac-  
cination is on a boom and everybody is  
wearing a sore arm.

THE Democratic Legislative candidates  
at Cincinnati have secured their certifi-  
cates of election, and if there is to be a  
contest it will now have to be made in the  
Legislature. The Republicans tried to  
mandamus County Clerk Dalton and pre-  
vent him from issuing the certificates, but  
they were too slow. The Democrats had  
their certificates of election before the  
papers had been served on that official.

It is interesting to note the progress of  
small-pox from Montreal into this coun-  
try. It is slowly creeping southward  
from one town to another on the highway  
travel to New York. When it makes its  
appearance here our Board of Health  
may be trusted to master it, but every  
citizen should do his share toward pre-  
venting the community by vaccinating him-  
self that he is properly vaccinated.—

The Hopkinsville, Ky. News Era  
comes down with both feet on the alleged  
Democratic newspaper men who have been  
criticizing President Cleveland and  
doubting his Democracy. Its defense of  
Cleveland is strong one and its language  
is forcible and convincing. Among other  
things it says:

"It is not whispered by any of these  
disaffected gentlemen that President  
Cleveland has intrigued and tampered with  
the Democratic crew in any of his official  
acts. It is conceded that he has surround-  
ed himself with a Democratic Cabinet of  
distinguished ability and integrity, that  
he has placed all the administrative bu-  
reaux and departments under sound and  
capable Democratic chiefs, that he has  
dealt a vigorous blow at official corrup-  
tion, profligacy, and extravagance, where-  
ver it has been found entrenched in the  
public service, that he has in every known  
instance removed incompetent and un-  
faithful officers and servants from the  
Government service to the measure of his  
power to do so, and that his honesty, capacity  
and fidelity to official duties are now the  
official requirements from the Atlantic to  
the Pacific Ocean, and that all official  
circles are prevailed by a purity of atmo-  
sphere and a standard of morality un-  
known in the past twenty-five years. All  
this is admitted—it is felt and seen by all."

## TOOTHACHE SCANDAL.

A Case Which is Very, Very Naughty.

CLEVELAND, Oct. 27.—High society in this  
city received a severe shock by the publi-  
cation of a sensational bit of history in the  
Press. Mrs. A. C. Carey keeps a re-  
spectable boarding house on Courtland  
street and is engaged to be married to Capt.  
Lacey, a wealthy fire brick manufacturer,  
and who is connected with some of the  
wealthiest families in Cleveland. The two  
were introduced about two months ago, and  
immediately became engaged. Mrs. Carey  
thereupon commenced a suit for divorce  
from her husband, Francis L. Carey, who is  
connected with a wealthy southern family  
in New Orleans, and who served with dis-  
tinction in the Confederate army, claiming  
she thought him dead, the divorce proceed-  
ings being a mere formality.

Lacey's family had in the mean time sent  
a detective to Chicago, where the Careys  
had formerly lived, to investigate. Carey  
was a prominent and respected citizen. He  
was brought to Cleveland, and said that he  
had met Mrs. Carey, who claimed she was  
the wife of Wm. Morry, a very wealthy  
citizen of Pittsburgh, shortly after the war.  
She claimed that she had lived with him  
(Carey) as his mistress for some time until  
he procured his release from jail, where he  
had been confined for stabbing a man in the  
Sherman house, Chicago, on his agreeing to  
marry her.

They then came to Cleveland where he  
claims she had led a life of crime and re-  
lation with several prominent citizens. Mrs. Carey  
makes counter charges against Carey,  
claiming that she was represented to be  
and that he embezzled \$20,000 from Ed-  
wards, Townsend & Company, of Cleveland,  
which she paid up herself, and that he was  
afflicted with foul disease when she married  
him. Lacey is still loyal to his fiancée and  
says he will have the case sifted to the bot-  
tom. Meanwhile the upper circles in this  
city, Pittsburgh and New Orleans are anx-  
iously awaiting developments, which are  
promised soon.

## CONSPIRACY PLOT.

An Heiress Wanted Out of the Way—Pola-  
ria—Murder Next.

BOSTON, Oct. 27.—The police arrested a  
woman known to be Louise Sylvan, of  
"Room 11" fame, as principal in an alleged  
conspiracy to murder a certain young Bos-  
ton heiress in order to gain possession of her  
property. Police was administered, but al-  
though the victim suffered from its effects  
died. It was then planned to kidnap the  
lady to Baltimore and kill her there, and  
a man was hired here to perform the deed.  
This man accepted money of the conspir-  
ators, but shortly before the time ap-  
pointed for action his heart failed him and  
he confessed to the police.

He was taken to the plot on the go, the  
detectives meanwhile shadowing the conspir-  
ators. For two weeks past every move  
the plot had been watched, and suffi-  
cient evidence was gathered to warrant  
the arrest mentioned. The prisoner proves  
not to be Louise Sylvan. If the police know  
her name they conceal it, and the name  
of the victim is also temporarily withheld.
